Company _____ Date : _____

Address _____ Phone/Fax : _____

_____ Inquiry Ref : _____

Name & Designation : _____ Department : _____

PROCESS DESCRIPTION / LAYOUT

For better evaluation of your problem briefly describe the process in which the scrubber will used :

CHOICE

SCRUBBER TYPE GRAVITY SPRAY PACKEDBED JET VENTURY WET CYCLONE

Name of Contaminant	CFM	Concentration	Source	Temp.	Pressure

Physical State of Contaminants : Solid Liquid Gas Mist Vapour

Characteristics of Contaminant :

Explosive Flammable Corrosive Abrasive Toxic Soluble in Water
 Scaling Foaming Insoluble in Water Sticking Tendency Fouling

SCRUBBING MEDIA

Fresh Water GPM Treated Water - GPM Process Water GPM PH of Water

PERFORMANCE GUARANTEE

Please Specify the pollution Board Stack Concentration limits for each contaminant.

PLANT LOCATION

Metro Residential MIDC / GIDC Rural

NATURE OF PROPOSED LAYOUT WITH PREFERRED MOC

Roof Mounted / Terrace Inplant Ground Level Open Yard

Please Furnish the layout of scrubbing system distinct with bettery limits

Utilities atsite Power Water ETP Cooling Water Area Available

PURPOSE

To Protect Plant & Product Air Pollution Control Health of Workers Recovery
